How To Download Mantra Iris Scanner - Single USB MIS100V2 Installation?

What is Mantra Iris Scanner - Single USB MIS100V2 ?

The Mantra MIS100V2 USB Iris Scanner is a high-quality USB IRIS Sensor that may be used for IRIS Authentication to access desktop or network security. A single IRIS Sensor MIS100V2 can be used for a variety of identification applications, including Aadhaar authentication, banking, and access control. Our STQC-certified iris sensor uses a high-resolution CMOS sensor to produce high-quality ISO/IEC 19794-6 images compressed with JPEG2000. The MIS100V2 quality algorithm can quickly recognise low-quality IRIS images and correct them using built-in LED indicators. It also uses patented distance detection and focus analysis technologies to enable quick auto-capture.

Requisites for Mantra Drivers :

Features

- STQC Certified Product
- KIND1 to KIND7 with JPEG2000 compression
- RoHS compliant
- USB 2.0 connectivity
- Plug & Play USB 2.0 with high-speed interface
- Lower FAR and FRR
- Auto capture with built-in quality check
