4. Upgrades

4.1 RD Service Upgrade

There are two processes to upgrade MFS110 RD Service Version 1.0.3 to 1.0.4.

1) **Manual RD Service Upgrade Process**

You can download MFS110 RD service setup version 1.0.4 & MFS110 Driver Setup (If not installed) Version 1.1.0.0 from below download Portal https://www.radiumbox.com/download

If driver setup not installed, then download using below LINK.
https://www.radiumbox.com/download

2) **Auto RD Service upgrades process from Management Server**

Management Server will have facility to upgrade MFS110 RD Service1.0.3 to 1.0.4 remotely over the air.

One very restart, RD Service will check latest version available on Management Server, and Management Server will provide upgraded packages to RD Service.

4.2 FirmwareVerification

After "Framework is ready to use" popup, RD Service will ask for firmware verification as below.
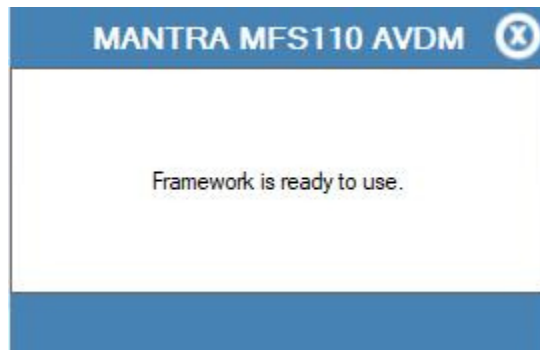

Click on "OK" to verify firmware. After that please wait for a while and do not disconnect the device and wait for next message.

Once firmware verified, below popup will be displayed. Device will be restarted and wait for Device attached message and after that "Framework is ready to use" popup will be displayed. And now service is ready to use.

5. New Features

Features added in this release as

below. Functional Improvement.

6. Known Bugs and Limitations

6.1 General Note

MFS110RD service setup version 1.0.4 having dependency of Dot Net Framework 4.8 or higher, VC++ 2013 redist and VC++ 2015-2019 or VC++ 2015-2012 redist, so its recommendation to Install MFS110 Driver Setup 1.1.0.0 or higher.

6.2 Defect or Bug
